Spring Integration

Spring Integration is an open source framework for enterprise application integration using the well-known Enterprise Integration Patterns.[3] It is a lightweight framework that builds upon the core Spring framework. It is designed to enable the development of integration solutions typical of event-driven architectures and messaging-centric architectures.[4]:691–722,§16

Spring Integration is part of the Spring portfolio.

Spring Integration	
Developer	Pivotal Software
Stable release	7.1.0[1] / June 10, 2026
Written in	Java
Operating system	Cross-platform
Platform	Java Virtual Machine
Type	Application framework
License	Apache License 2.0 [2]
Website	https://projects.spring.io/spring-integration/
